Lago revisited

On Saturday, the impressive and very handsome result of a seven year "dig" and research into Aruba's Lago history by Jorge Ridderstaat was baptized by two of the author's most important supporters, Betty Goeloe and Dufy Kock, in front of the San Nicolas Foundation for the Arts, SiNFA, building on the oil town's main street.

The Lago Story was carried out by Carlos, on stilts, with Lord Boxo's calypso "God Bless Lago" playing as he showed off the book to those present, against an artistic backdrop of a photo of employees leaving the Lago gate and a large Lago sign created by Adolfo Valbuena, with sponsorship from Aruba Post Bookstore and Charlie's Bar, both located further down the main street.
